

Introduction

Medico Radar is an application that helps you locate the needed physician in the least period of time possible.

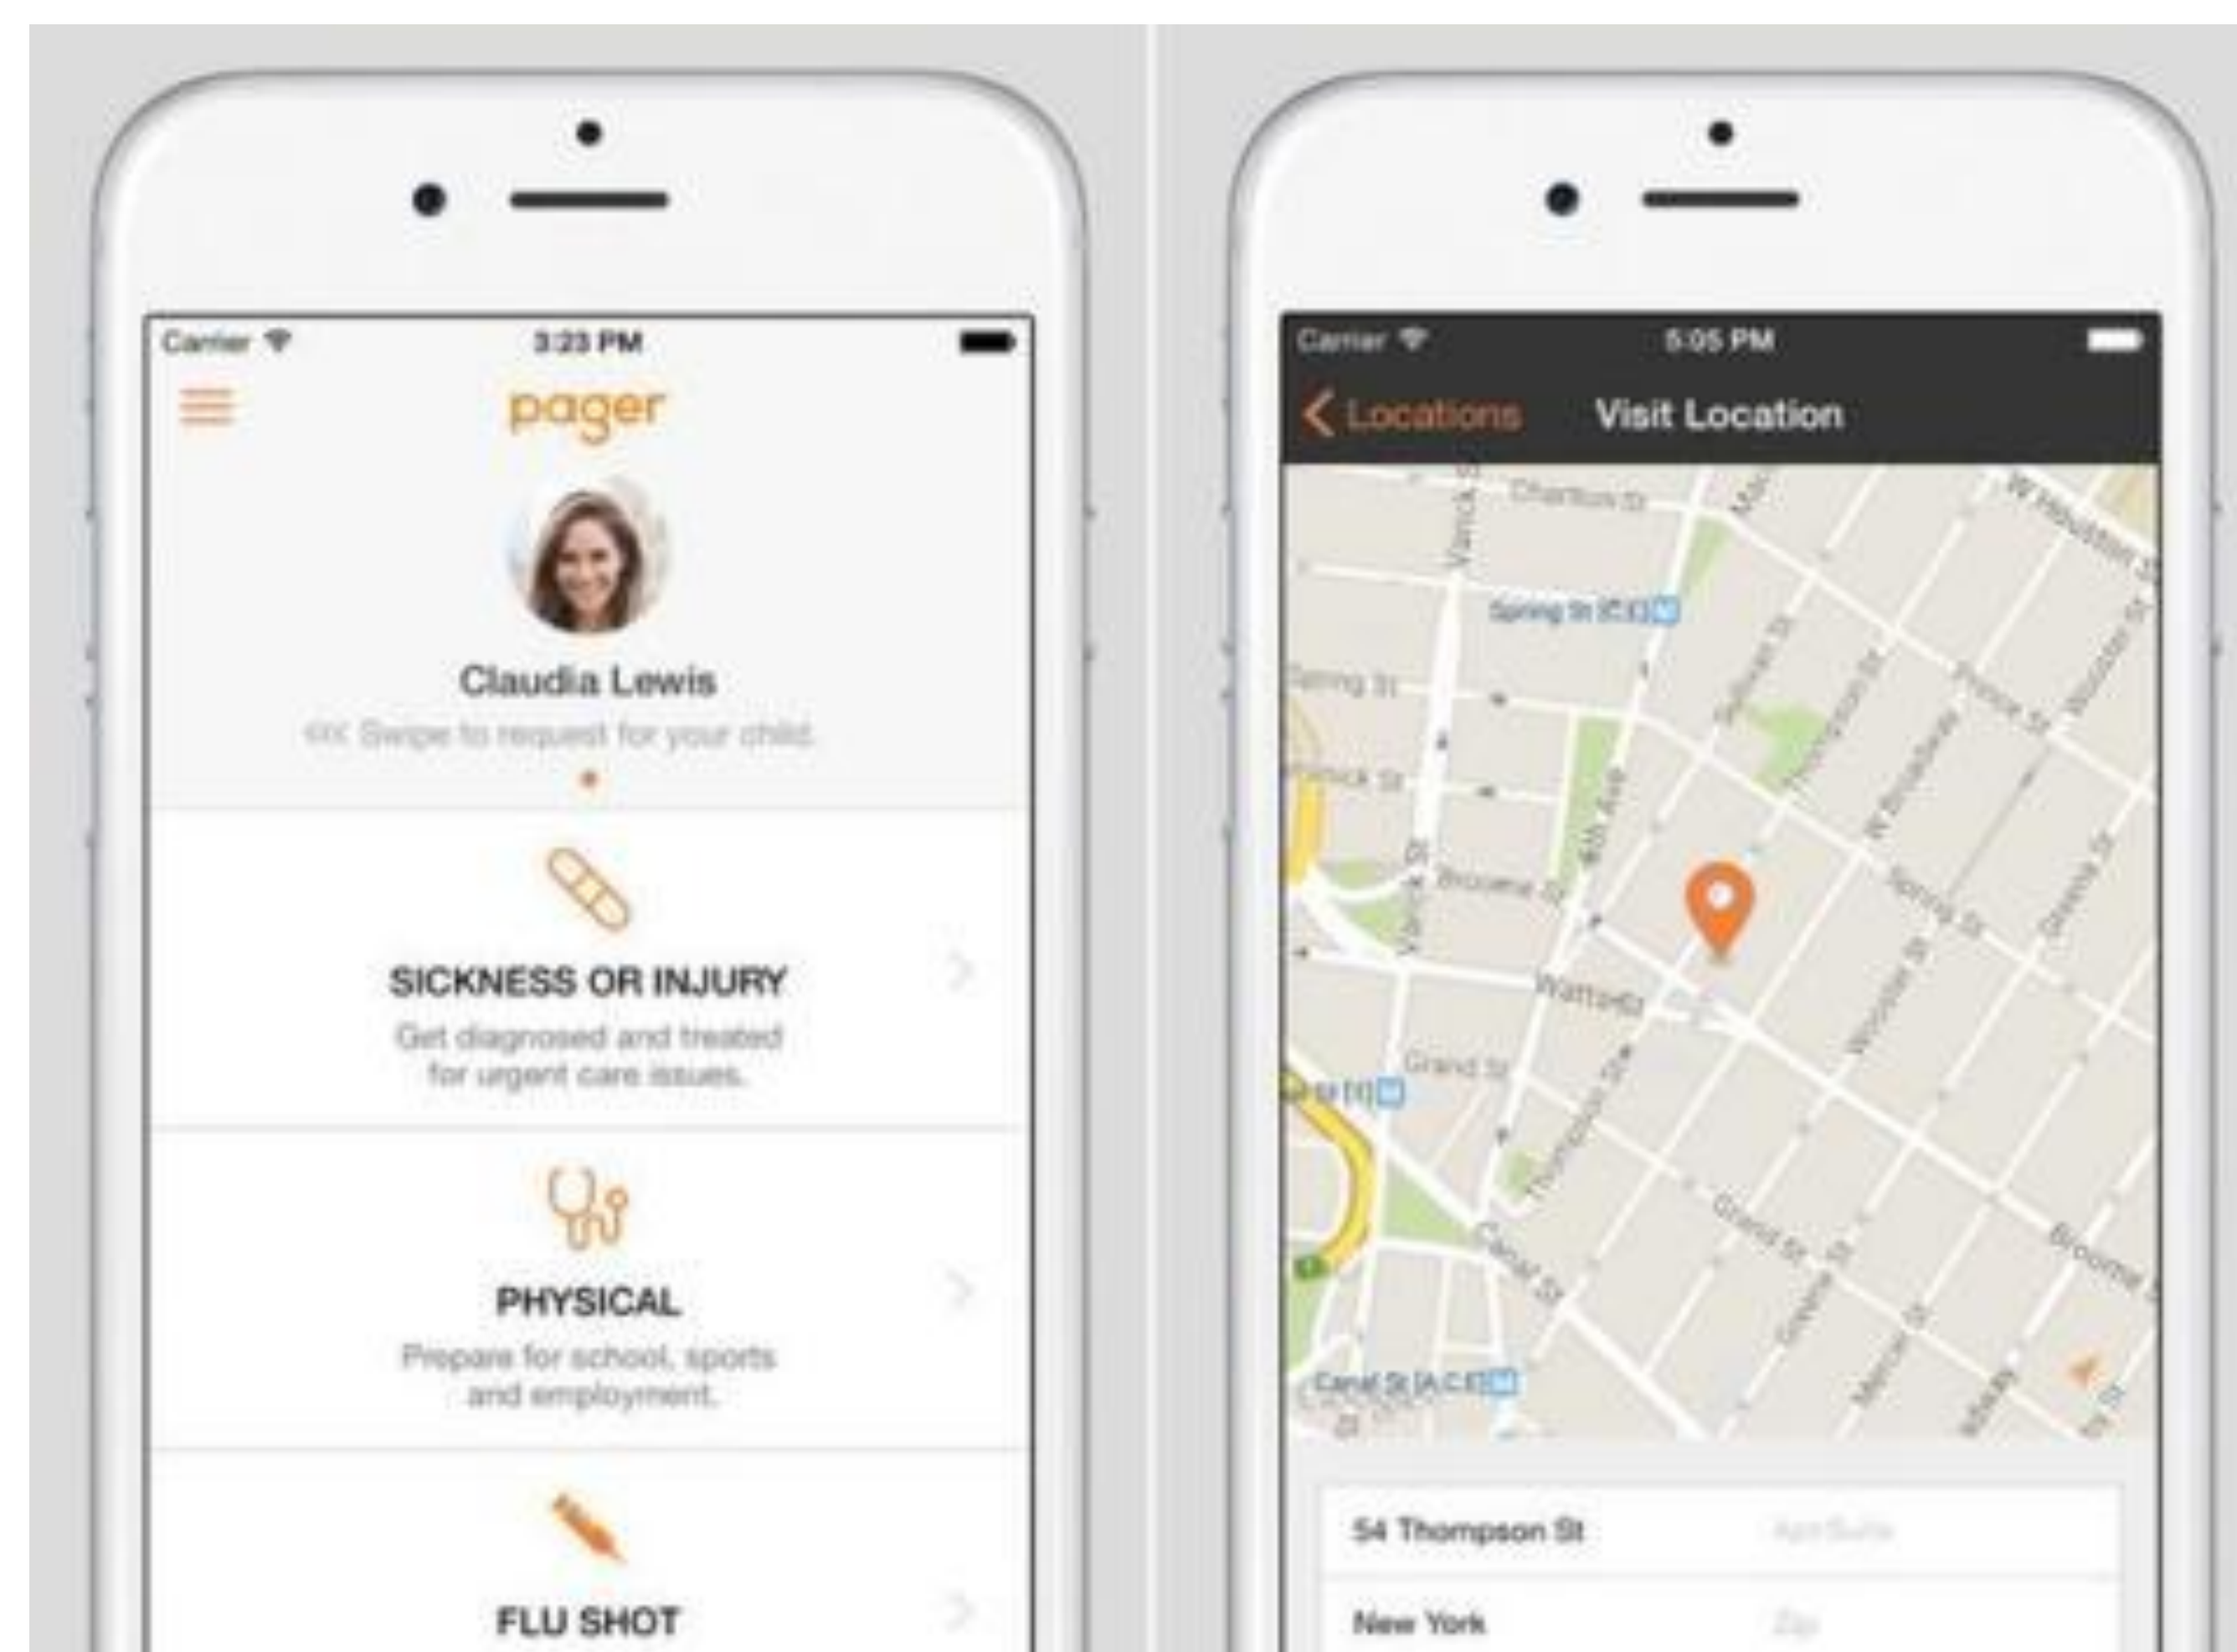

Objectives

- To find a way to help patients find the doctors they need at a fast speed.
- To find a way to help bring patients to doctors.
- To help book a reservation with doctors without having the need to go to a hospital.
- To save time, money and effort.

Motivation

The lack of Medical specialist needed and the difficulties for people to find what they need. Many families lost people because the lack of findings of the specialists they need, and hopefully with this app, no one has to suffer again.
