

# WHAT IS PLAGIARISM?

Presented By: Hind Fathi  
Tutor for 2<sup>nd</sup> year

The word “plagiarism” comes from the Latin word for “kidnapper” and is considered a form of theft, a breach of honesty in the academic community.

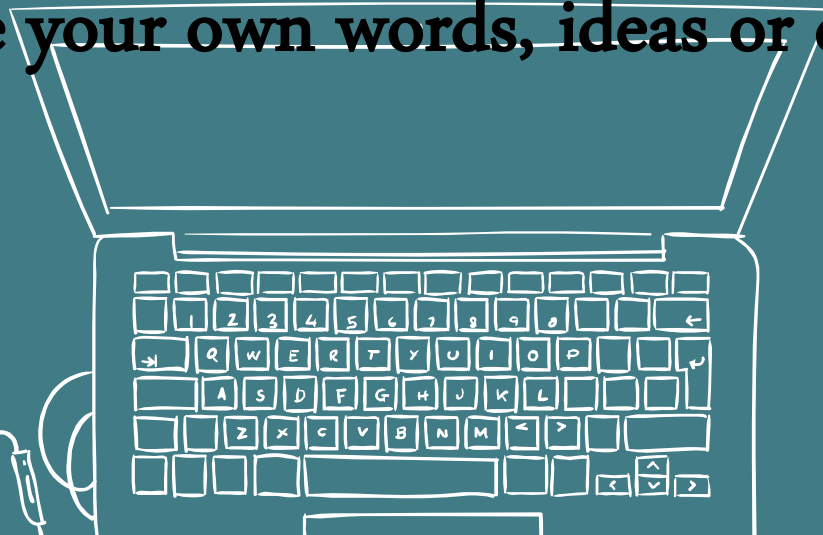

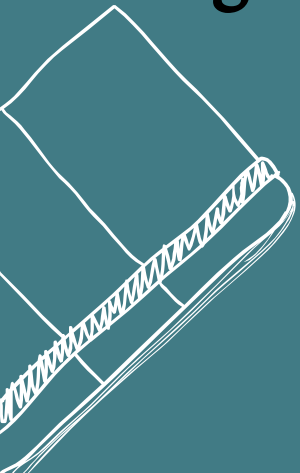

What do lecturers and tutors mean when they say: 'You must not plagiarize' and 'Always remember to reference your work'?

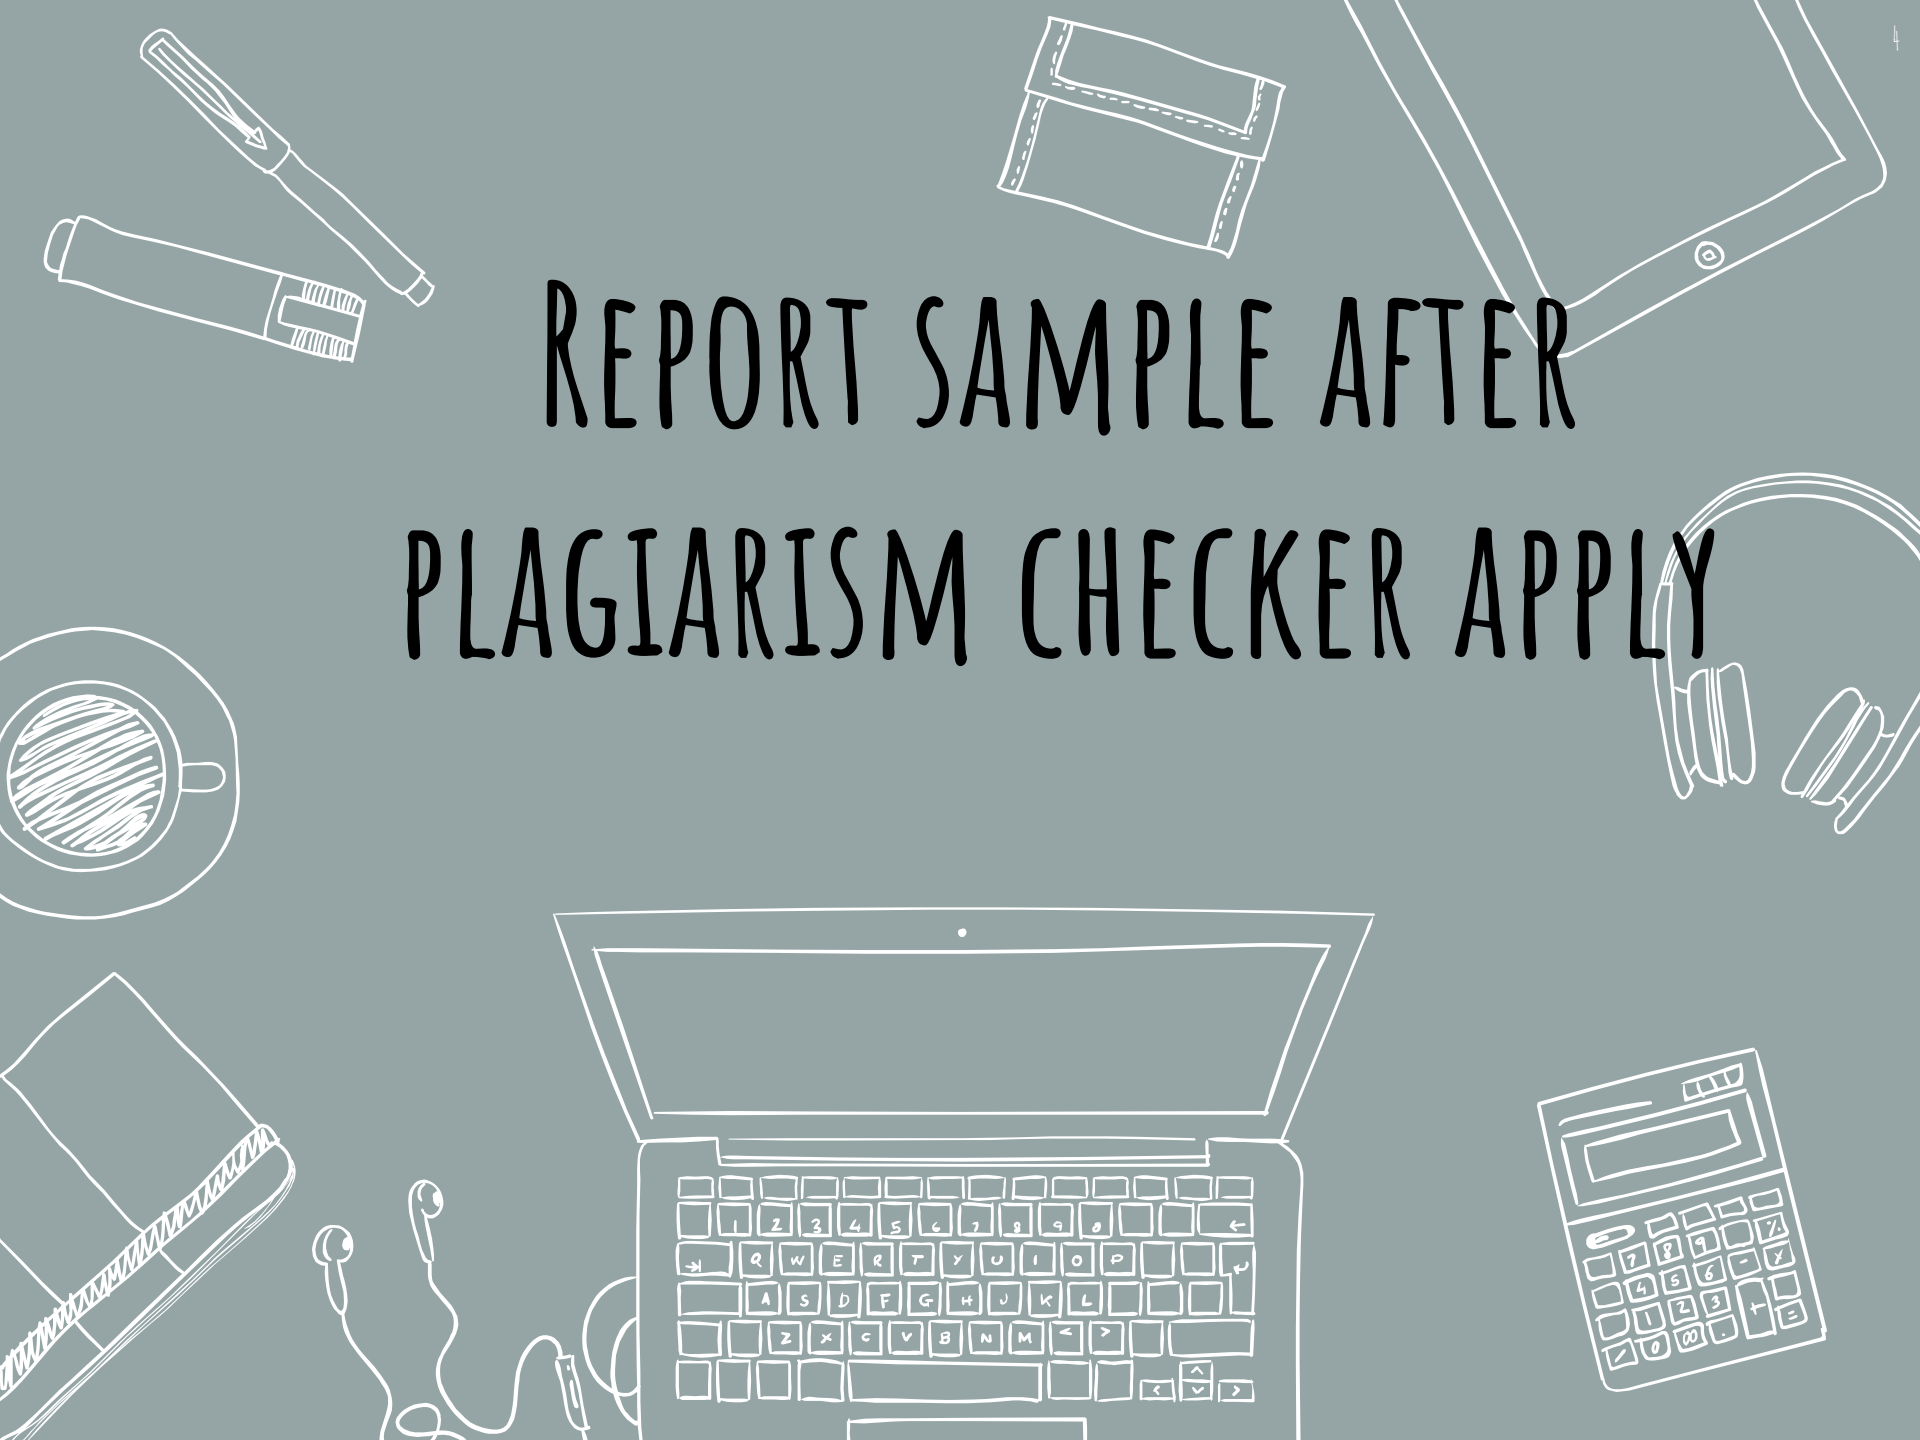

We mean:

You cannot take someone else's words, ideas or data and use them in your assignments so that they appear as though they are your own words, ideas or data.
